

APPLICATION FOR PRIOR LEARNING ASSESSMENT

Earning Credit for Work or Life Experience

Not all learning is done in the classroom! At CCBC, we allow students to create portfolios to substitute work or life experience for official credit towards their degree for classes not previously taken. Your portfolio is critical in determining whether you are eligible to receive college credit.

Checklist for Building Your Portfolio

- A personal essay (2-5 pages) explaining how you meet the course objectives through your experiences.
- Supporting documentation may include resume, certifications, trainings, letters of recommendations, employer evaluations, job descriptions, work assignments, personal projects, and/or faculty interview or assessment.
- Need help? Review the course descriptions on our website, discuss the syllabus with your faculty advisor, or visit Admissions & Registration for assistance in completing your portfolio.

It's Easy to Get the Credits You Deserve

1. Complete this application form and a separate portfolio per course.
2. Pay a non refundable \$129.00 fee per course to the Cashier's Office.
3. Submit your completed application and portfolio to Admissions & Registration.
4. We will notify you after your portfolio was assessed to determine if credits will be awarded.
